Fiber cutting, re-spooling and maintaining an inventory of bulk fiber cable, per above inventory snapshot, is positioning Walker to support customer needs in even greater capacities. Also, if you have a fiber cable need for something other than what Walker currently has in inventory, please reach out to your Walker and Associates Inside Sales Executive to begin the discussion today. Below are examples of the different types of fiber cable we can fulfill for your project needs:

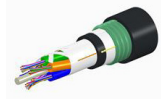

Drop

Hybrid

Indoor/Outdoor

Outside Plant

This fiber optic cable is manufactured in ISO-registered facilities with leading-edge equipment. Performance test results can be accessed/downloaded via online to ensure these cable meet or exceed industry standards.

Walker is uniquely poised to provide not only the fiber cable, but also the associated equipment and services that matter to anyone involved in designing, building and maintaining growing networks.
