

**ALL IN ONE.  
ALL FOR YOUR  
NETWORK.**

YOUR ONE-STOP SHOP FOR  
ALL TELECOMMUNICATIONS  
MATERIALS AND SUPPLY CHAIN  
MANAGEMENT SOLUTIONS

# ***YOUR ONE-STOP SHOP FROM A TRUSTED SOURCE***

***Together, We're All In*** for our customers, our partners, the future of technology, and for our employees. We're committed to what we do and the connections we create because we know that the materials and services we provide are about so much more than the network they create. It's about the people who use it... to help them make better connections with the things and people they love. Because we want the brightest, most connected future possible.

## **CORPORATE OVERVIEW**

Walker is the nation's premier value-added distributor of network products and services for the broadband industry, and a trusted partner with more than 50 years of expertise, experience, and performance.

Walker's marketplace reach strengthened in July 2021, when it was acquired by USTC Corp, the leading one stop shop for all materials, distribution, and supply chain management solutions for telecommunications, HFC, FTTH, FTTx, wireless, and data center technologies. Additionally, USTC acquired Comstar Supply, a national distributor of outside plant material and equipment for the broadband industry in August 2021.

Together the three complementary organizations have a unique one-stop shop offering with seven distribution locations across the U.S. With an extensive and comprehensive portfolio of over 17,000 state-of-the-art products from over 750 industry leading manufacturers, and best-in-class logistics solutions, Walker supports thousands of carriers' full range of products and solutions for seamless delivery of high-speed Internet, Video, Data, and Voice Services to Residential, Business, and Mobile Users.

We're redefining what a telecommunications materials distributor and value-added services provider can be and do for our customers.

## **SUPPORTING UTILITY PROVIDERS FOR MORE THAN 70 YEARS**

Utility companies have powered local economies by providing vital connections across the country for decades. Today, we're experiencing that same investment in broadband projects, as co-ops are reinvesting in rural America by bringing high-speed internet access to homes and businesses.

Walker, USTC Corp, and Comstar Supply have created a unique one-stop shop solution to support your network deployments, maintenance, and upgrades. With more than 70 years of combined experience in outside plant and active network technology solutions, we have the requisite expertise and supplier relationships you can trust.

As you upgrade and modernize your teleprotection infrastructure or build out full networks from fiber plant, count on us for the products, people, partnerships, and processes required for success.

*Your community counts on you. You can count on us.*

# STREAMLINING YOUR BUSINESS & SUPPORTING YOUR NEEDS

Communications carriers have trusted Walker to help navigate through industry changes, opportunities for growth, and technological advances. We connect the right mix of people, products, partnerships, and processes in order to consistently deliver on commitments to excellent service and unsurpassed value. We're your go-to to get things done.

## SIMPLIFY YOUR OPERATION

We provide best-in-class technical and logistics expertise with our utilization of supply chain technologies.

## SAVE MONEY

Our scale and expertise translate into significant operating and purchase cost benefits for our customers, allowing you to focus on helping your subscribers connect to the people and things they love.

## SAVE TIME

Our technical and logistics expertise and experience, combined with our utilization of supply chain technologies, simplifies and optimizes your operations so you can focus on your customers.

## GET THE RELIABILITY YOU WANT

You can count on us. Our timely focus will support your critical projects and operations, so you can focus on building, maintaining, and growing your network.

## GET THE MATERIALS YOU NEED

We supply the products, materials, state-of-the-art tools and test equipment from the largest top-quality manufacturers for telecommunications providers, tier 1, 2, and 3 cable operators, rural utility providers, and contractors. From the headend to the home, we've got you covered with cables, connectors, conduit, fiber, hardware, actives, passives, and anything you need for the network.

# STATE-OF-THE-ART SUPPLY CHAIN & LOGISTICS SOLUTIONS

Walker is the ultimate one-stop shop for your network requirements. With seven distribution centers nationwide with over 950,000 square feet of indoor and outdoor warehouse and storage capacity, Walker makes it simple for you to purchase and install the products you need. We maintain a thorough and efficient state-of-the-art distribution system, saving customers time and money with logistics expertise in warehousing, asset management, barcoding, scanning, configuration services, custom network deployment kits, and more.

## BEST-IN-CLASS PRODUCTS & SOLUTIONS

We have over 17,000 SKUs of equipment, state-of-the-art tools, and top-quality materials available from our 750+ global suppliers, and support tiers 1, 2, and 3 cable operators, telecommunications service providers, rural utility providers, and contractors with extensive industry expertise and experience. We've got you covered from the headend to the home.

# END-TO-END NETWORK DEPLOYMENT SOLUTIONS

Selecting a solutions vendor is a strategic decision that is essential in your network deployment's success. Your subscribers depend on you to deliver reliable, high-speed Internet connections that are critical to your community's future development and well-being.

Walker delivers the entire spectrum of solutions you need to support your expanding broadband network. Together with USTC and Comstar Supply, we have a 70+ year combined legacy of supporting service providers, utilities, and government organizations with network deployments.

Our certified engineers and technicians help you plan, deploy, and maintain your network, while our expansive range of logistics services provides customers with worry-free supply chain management.

## OUR VALUE-ADDED SERVICES

**Network Advisory, Design, Planning**  
Networks designed to support current demand and future growth

**Multi-Vendor Custom Configurations**  
Validated and tested to ensure optimal performance and value

**Pre-Wired Enclosures & Cabinets**  
Customized for your deployment needs

**Custom Network Deployment Kits**  
Rapid deployment of equipment and network solutions

**Pre-Configured Equipment**  
Pre-staged and vetted from the core network to customer premises

**Pre-Cut Fiber**  
Bulk fiber cable in stock and ready to ship

**Customer Asset Management Program**  
Online tracking of your orders, assets, and delivery in real-time

**Installation Services**  
Certified engineers, installers, project managers are ready to deliver a complete solution

**Managed Services**  
From best-in-class SDN and NFV offerings to fully managed network and support services

**Maintenance Services**  
Streamlined access to OEM certified engineers and flexible SLA options
